Wall Fountains

Feature Name : **Shell Basin** website code **590**

If you're looking for the ultimate wall fountain for your patio or deck, then look no further. This beautiful shell has been expertly reproduced to show every little detail of the real thing, only a hundred times bigger.

Botticelli's Venus wouldn't look out of place standing in this!

Manufactured from reconstituted stone, with either a Portland or Bath stone finish.

Will make a stunning statement, doubly so when twinned with the Triton mask, as shown in the picture, full details elsewhere.

120cm wide x 100cm deep x 35cm high.

WaterFeatures2U Price: £995.00

Wall Fountains

Feature Name : **Triton Mask** website code **591**

Celebrating a marine theme, Triton, son of Poseidon, who personifies the roar of the seas, is vigorously carved with hair of seaweed stuck with shells, a crab hanging from his cheek. The commanding presence of the Triton will work equally well in either a traditional or contemporary setting and can be used to great effect in a large country garden or a small town garden. The ultimate wall fountain to spill into your ultimate shell. Made from reconstituted stone, finished in Portland or Bath stone. 60cm high x 43cm wide x 24cm deep.

WaterFeatures2U Price: £595.00

Wall Fountains

Feature Name : **The Green Man** website code **875**

The Green Man has many shapes and guises. As an ancient pagan symbol, he usually takes the form of a human head which is surrounded by foliage, his features and hair being formed from leaves.

This potent image is one of the enduring themes in mediaeval art and architecture. Designed as a water feature, the water pours from his mouth.

310mm high x 305mm wide.

Made from Granite aggregates, they are very durable and frost resistant and each one is hand etched to highlight the colour and texture of the natural stone.

Available in green, black or pink granite.

Shamrock 1700mm diameter x 190mm high.

Pump included.

WaterFeatures2U Price: £125.00

Wall Fountains

Feature Name : **Cycladic Wall Fountain** website code **1031**

Stunning water feature by renowned sculptor Dennis Fairweather. All sculptures are cast in solid bronze resin with a skilfully applied patination. The surface, being 80% bronze, reacts very well with the atmosphere and does change over time, but can be polished back to show the bronze highlights if required. The sculptures are completely frostproof making them suitable for the garden. 74cm.

Wall Fountains

Feature Name : **Wall fountain, self contained** website code **1220**

These water features are architectural and minimalist in style and look great in a contemporary garden setting. In keeping with their streamlined look, their water flow is subtle and quiet, rippling and glistening over the stone. They are made as a hollow 'box' from slabs of granite. This means that although they look just like solid stone they are much lighter, and really easy to handle and install. Comes complete with pump, hose, reservoir etc. 1000mm high x 600mm x 300mm wide.

WaterFeatures2U Price: £425.00

How to order...

Please Note: Telephone orders taken between 1pm and 4pm Monday – Thursday.

You can also request further information about any features shown by sending an email to **sales@waterfeatures2u.com**.

Wall Fountains

Feature Name : **Wind God Wall Fountain** website code **1234**

This range of fountains are the best reproductions I have seen, exactly like the real thing to the smallest detail, they are constructed from fiberglass containing either, crushed stone, faux Bronze, Aluminum etc, so offering immense strength along with light weight.

The finish is not added as an afterthought like most products of this type, instead they are incorporated during the moulding process.

The Iron finish in the iron range is predominantly real metal, this means that left untreated, they will rust!

This product should be treated like any other metal product: for a shine, buff it with steel wool or a buffing pad. Maintaining a thin coat of oil on the item will also help prevent rusting, or you may also paint or spray the product with an acrylic sealer for extra protection against rust. These products are durable and weather resistant engineered to survive freezing temperatures (-10 F); conditions that cause more conventional garden ware to crack and disintegrate.

79cm high x 63cm wide and 27cm deep..

WaterFeatures2U Price: £200.00

The finish is not added as an afterthought like most products of this type, instead they are incorporated during the moulding process.

The Iron finish in the iron range is predominantly real metal, this means that left untreated, they will rust! This product should be treated like any other metal product: for a shine, buff it with steel wool or a buffing pad. Maintaining a thin coat of oil on the item will also help prevent rusting, or you may also paint or spray the product with an acrylic sealer for extra protection against rust. These products are durable and weather resistant engineered to survive freezing temperatures (-10 F); conditions that cause more conventional garden ware to crack and disintegrate.

83.5cm high x 117cm wide and 76.2cm deep.

WaterFeatures2U Price: £450.00

How to order...

The quickest way to order your chosen feature is to go online at **www.waterfeatures2u.com** and use the shopping cart facility.

If you prefer to order over the phone please call us on **++44 (0) 1964 501988**

Please Note: Telephone orders taken between 1pm and 4pm Monday – Thursday.

You can also request further information about any features shown by sending an email to **sales@waterfeatures2u.com**.

Wall Fountains

Feature Name : **Lion Wall Fountain** website code **1242**

This range of fountains are the best reproductions I have seen, exactly like the real thing to the smallest detail, they are constructed from fiberglass containing either, crushed stone, faux Bronze, Aluminum etc, so offering immense strength along with light weight.

The finish is not added as an afterthought like most products of this type, instead they are incorporated during the moulding process.
